

CONTRACTING WITH QUALITY AND CARE

Interna is an Italian company specialising in high quality décor for distinctive buildings. Over the last 15 years the company has succeeded in becoming one of the key international players in luxury interior design by achieving the complex task of contracting with quality and care.

INTERNA's competence lies in managing the complex task of contracting. Far from being an interior design studio or a purchasing company, the company undertakes particular design projects for big investors in close collaboration with local and global interior designers, purchasers and hotel chains. It produces graceful items based entirely on its clients' drawings and particular requirements, using its know-how and advanced technology. The furniture or furnishing may be made from any of the materials that nature or technology provides, while the finish will always be refined.

Formed in 1989, Interna quickly worked at becoming a world player in the luxury hotel market. As a result, its current high-profile client portfolio includes some of the most unique artistic and historical refurbishing projects undertaken in recent times. The result of these first 15 years is a solid and uninterrupted close collaboration with luxury world-class hotel chains, famed interior designers, international financiers and world-renowned purchasing companies – with relationships now spreading over five continents.

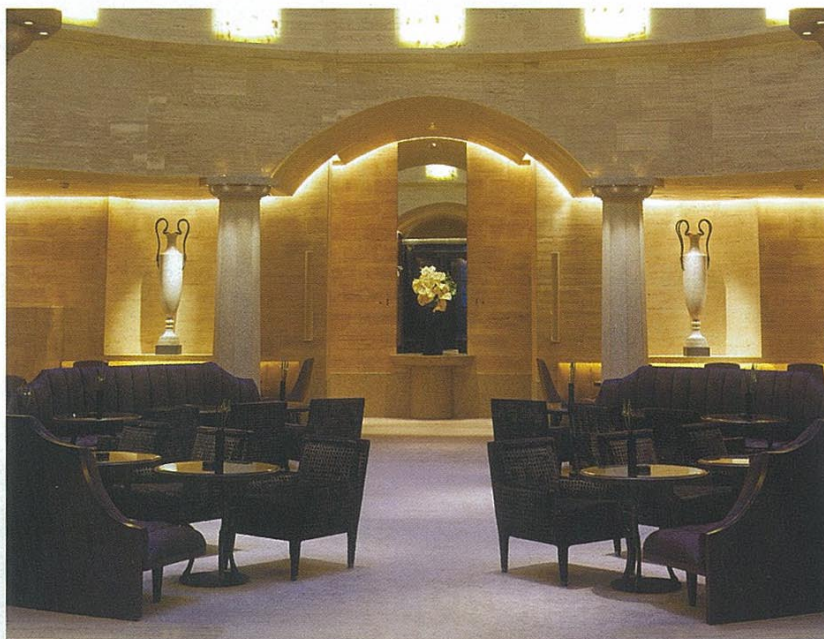

Over time, Interna has begun to branch out and to operate in new environments. The company now works primarily in the following sectors: hotels, bars and restaurants; private villas and luxury apartments; offices, designer stores and other retail outlets; health, fitness and recreational centres; museums, yachts and cruise liners. The company responds to clients who require that their vision of prestigious décor be hallmarked and be made real and who require not only exceptional quality but also the support of a personal guide and a world-class technical service.

Interna offers a complete package of services, including financing, shop drawings, production, project development, shipping and installation – all managed according to state-of-the-art project management systems. The company provides turnkey solutions for furnishing, finishing and internal décor, and it takes on the contractual responsibilities for quality, pricing and delivery times, as well as the

responsibility for ensuring that national and local regulations are fully respected.

The company is known on the international contract market for its capability to manage complex high-level projects, with the ability to create hundreds of unique pieces while respecting rigid fixed budgets and delivery terms. Its quality control systems have been assessed and certified to the UNI EN ISO 9001:2000 series of International Standards.

Some of Interna's most prestigious projects to date are:

- The Cartier Boutiques, worldwide. The task was to produce an intricate balance of refined design and exceptional strong security protection.
- The Hilton in Athens, Greece which was appointed the official hotel for the Olympic Games in 2004.
- The Grand Hotel in Paris, France and the attached world famous Café de la Paix.
- The magnificent Park Hyatt Milan, Italy in the city centre cathedral square.
- The Four Seasons 'Terre Blanche' Hotel on the fashionable Cote d'Azur, France.
- The Ritz-Carlton Laguna Niguel, a luxury resort hotel in the heart of the California Riviera, USA.
- A 43m long yacht for CRN, part of the Ferretti Group, one of the leading international shipyards specialising in yachts.
- A 114m long transatlantic yacht, constructed for a Greek shipping magnet, and to the exacting Lloyds MCA marine safety standards.
