

At Sloane

LONDON, UK

ID: FRANCOIS-JOSEPH GRAF

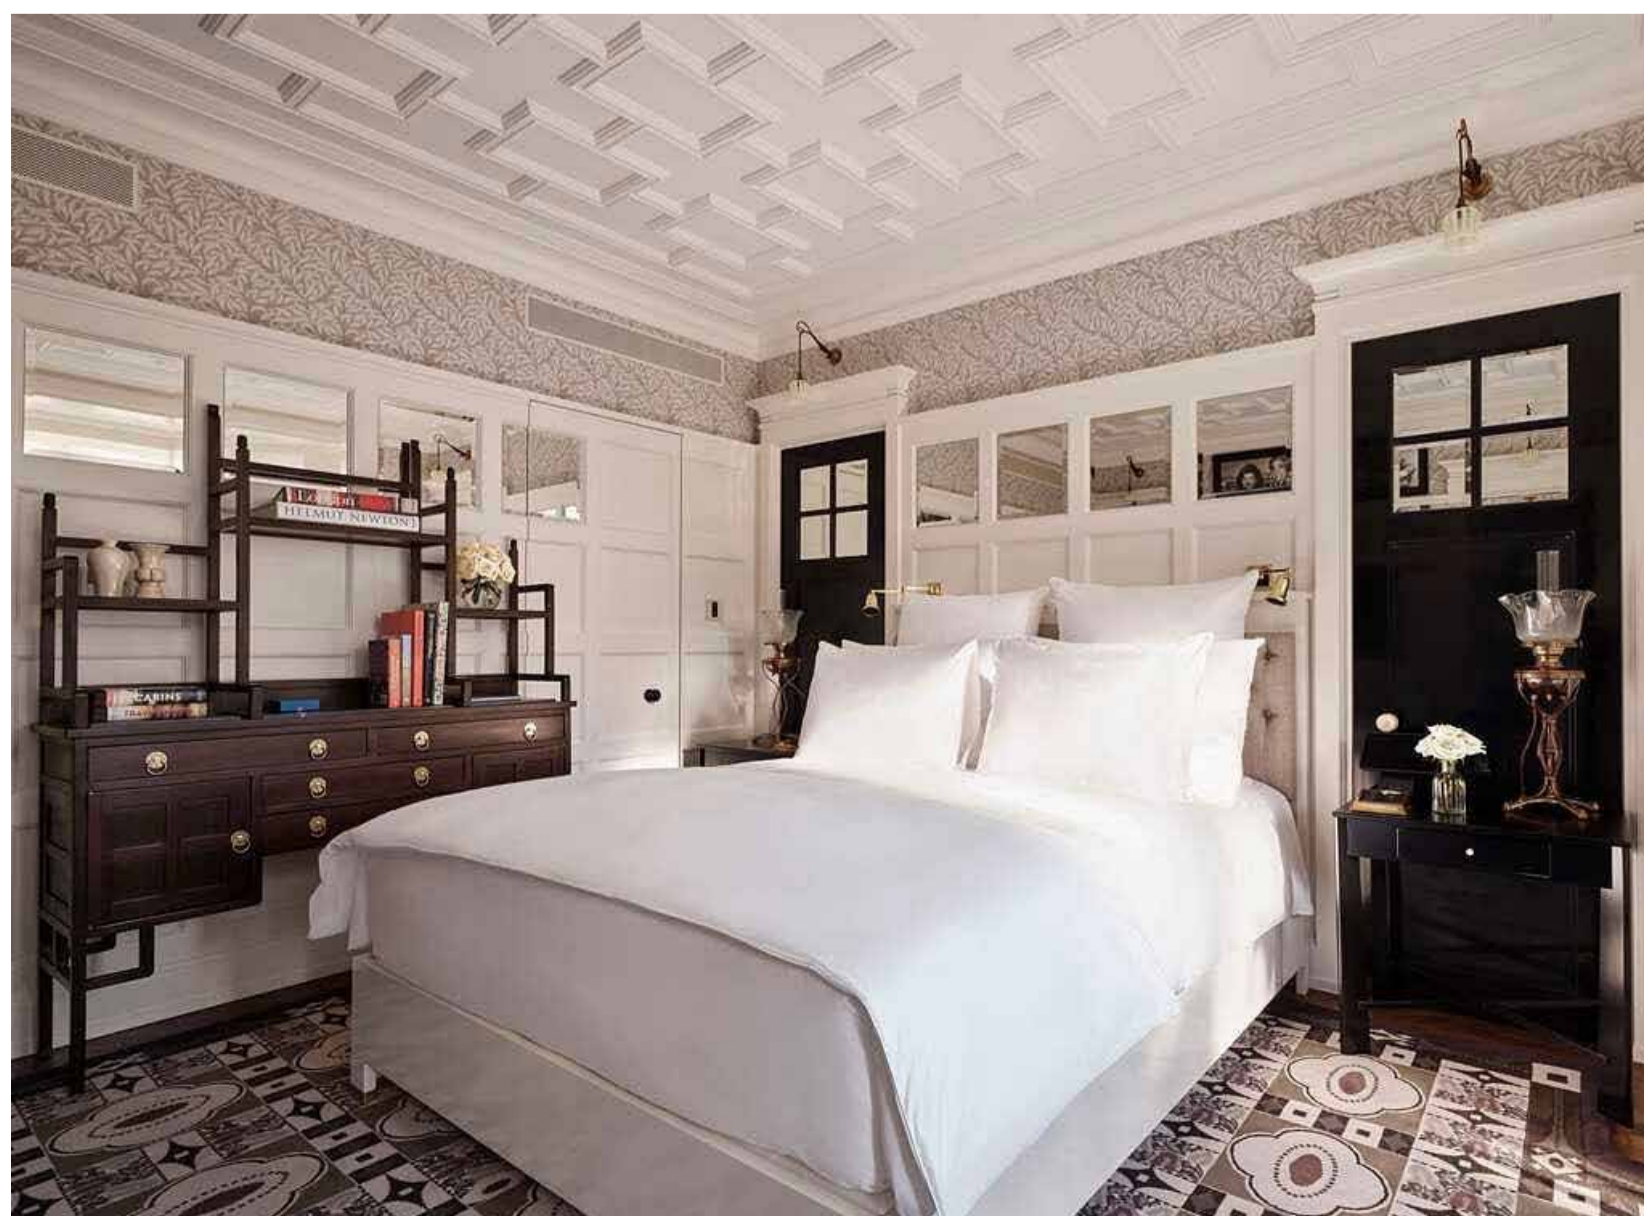

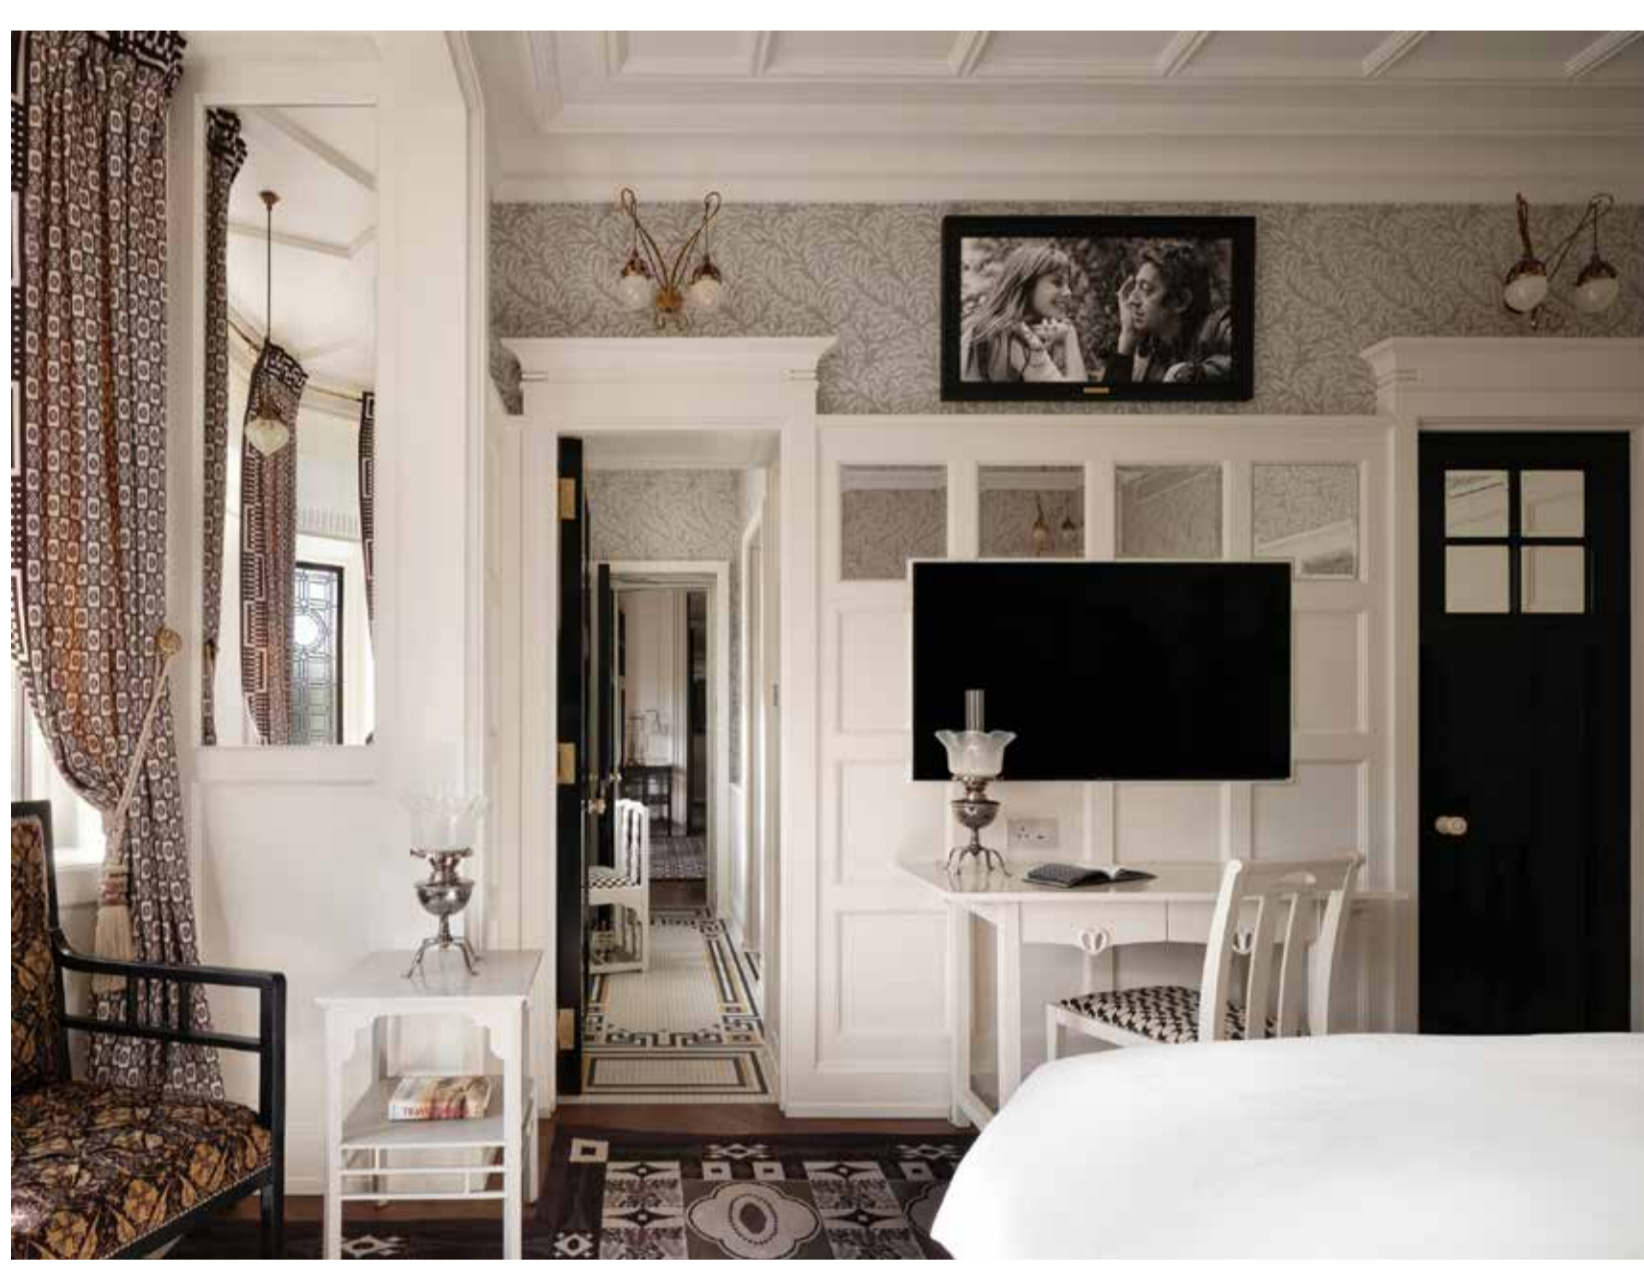

Interna has been part of the refurbishment of this luxurious hotel, located just off Chelsea's iconic Sloane Square, by producing upon exclusive design nearly all the loose furniture for the public areas and the guestrooms.

Interna supplied reception desks and bookcases for the lobby, tables with precious marble tops and armchairs for the top floor restaurant, banquettes, coffee tables, lounge chairs and cinema armchairs for the speakeasy bar downstairs, all produced with the utmost attention to every detail in a style that combines the quintessentially British elegance with a unique French touch.

For the rooms and suites Interna produced headboards and bed bases, nightstands, desks, coffee tables, chairs, stools, and bedside rugs, with an understated, elegant palette to create an intimate ambience with the luxurious comfort of a timeless private residence.
