

1  
HOTEL  
*Mayfair*  
LONDON | UK  
ID: GA DESIGN

1 Hotel Mayfair, nestled in two restored buildings in the heart of London's iconic Mayfair district, is not only synonymous with true sustainability but also a reminder that this is also very much a luxury brand.

Interna has been called to supply all the loose furniture and has produced sophisticated yet sustainable items for all the public areas, as well as for all the rooms and suites. A clean, contemporary design defines the luminous spaces with the pure, discrete lines of the furnishings whose tones of the earth are warmed by soft organic fabrics and by an abundance of living greenery. An ethical use of materials well mixed with a high quality of manufacture, where great attention has been given to even the most hidden detail, has resulted in a true form of elegance that refuses any form of ostentation, and creates a comfortable and welcoming ambience.
