

Cunard Queen Anne

Venice, Italy

ID: Adam D Tihany
David Collins, Sybille de Margerie
Richmond International

The *Queen Anne* - launched just a few weeks ago from Southampton and built at the Fincantieri shipyards in Marghera (Venice) - has breathtakingly modern yet timeless interiors that will define a striking new design direction for Cunard's future.

On the *Queen Anne* Interna has been called to work on seven among the most prestigious areas distributed on two decks. The complete fit out, executed from floor to ceiling, highlights an exclusive design, produced one-off according to very high standards of quality and in compliance with the strict naval regulations on the health, safety, and reaction to fire. In detail Interna furnished three huge restaurants, Princess Grill, Grills Lounge aperitif area and Queens Grill, on deck 10. On deck 12 Interna brought into being the Conference Room, the Wedding Room ceremony area, the Kids and Teens area and the Open Area with the outdoor space.
