

Raffles Europejski Warsaw Poland

ID: WWAA and Lazaro Rosa-Violan
Period: 2018
Client: H.E.S.A.

Built in 1857, the Raffles Europejski Warsaw has been, through out its history, the city's creative heart so much so that it survived the whims of history and underwent a number of renovations, the last one in 2018 upon design of the interior design studios WWAA and Lazaro Rosa-Violan.

For this piece of Polish history, Interna supplied part of the loose furniture for public areas and for the 106 elegant guest rooms and suites. Bar tables, desks, coffee tables and TV units were produced by Interna with the most refined materials and the highest standards of craftsmanship and quality. Along with the one-off custom made items, the dining tables for the suites were selected from Interna own collections.
