

The St. Regis Rome

ID: Pierre-Yves Rochon
 Period: 2018
 Client: Luxury Living & Supplies

Founded in 1894 in the heart of the Eternal City as *Le Grand Hotel*, the St Regis Rome has recently undergone an extensive refurbishment based on the design of the French studio Prierre-Yves Rochon Inc. Interna has been asked to provide, for this elegant 5-star hotel, the complete fit-out of the 138 rooms and 23 suites, including the bathrooms, as well as the doors and decorative wall elements for the entire structure.

Rooms and suites, with soft colours in the shades of powder blue and terracotta, present a clever mix of Empire, Regency and Louis XV style, with bathrooms covered in travertine, Marquina black marble and mosaic inserts. Interna has completed the renovation of the rooms in just a few months, performing a meticulous work, paying attention to even the smallest detail and adopting the highest quality standards.
