

For the second time in the span of a few months, Interna brought the Italian manufacture tradition to Qingdao, exclusive location in the northeast of China. Here, after the Italian Villa, in the most trendy area if the city, Interna Italy, in cooperation with the sister company Interna Asia-Pacific, implemented another prestigious residential project, an exclusive “French Villa”, supplying hundreds of exclusively designed and produced casegoods, lamps and upholstered items.

The design, work of the Hong Kong based Bilkey Llinas Design studio, is strongly influenced by Louis XVI style, with eclectic items balanced between neoclassicism and rococo. The client greatly appreciated the many pieces with porcelain inlays and the numerous decorative items matched with the furniture and perfectly meet the taste of the new growing Chinese upper class. All the items are 100% made in Italy and each single item underlines the Italian manufacture skilfulness made of antique techniques and practised manual skills.
